

Dear Madam/Sir

Dance with Cancer Association (Kanserle Dans Derneği) is the one of the important advocacy and patient organization dealing with cancer, especially concentrated on breast, gynecological, lung and colon cancer. I have been working as a volunteer and as a Project Manager for the NGO, providing marketing and PR support as well as assist in services such as patient education and guidance since 2017.

The driving force for me is the volunteers who work for Dance with Cancer passionately. The success of "Dance with Cancer" is directly related to the wonderful volunteers who help make "this dance" a great experience. So, if you choose me with this power provided to me, I would make difference to raise awareness and to help to improve the quality of care for Gynecological Cancer in Europe. I am a survivor of non-Hodgkin lymphoma, knowing very well that survivorship issues are not adequately addressed and psycho-social support in general is poor for survivors: I want to change this.

I am very eager to work with you to make the future cancer treatment patient-centered not forgetting either you, me or beloved one danced with cancer, and will go on. I will be delighted to be part of executive committee.

Thank you for your interest and support.

Sincerely,
Ceren COSKUN
