

Petra Adámková

Director of ONKO Unie, o.p.s, Czech Republic

I would like to apply to ENGAGe Executive Group (EEG) to continue in my work, especially on the World GO Day project.

I would like to continue efforts to **raise awareness** of ENGAGe in Europe and European companies and institutions, (eg introducing us to the European Parliament) and to map and develop regular PR activities such as World Awareness Days and building cooperation between members, supporters and partners.

At the same time, I would like to focus more on **patient advocacy**, mapping the situation of all countries in the field of gynecology and focusing on the quality of life of patients in each member country.

As a nominated EEG member, I have learned a lot in the last three years. I would like to pass all this knowledge on to the new EEG and continue with all the started projects and develop them even further.

I have found that the most beneficial thing is effective work step by step every day. There is a lot of work in EEG and there is still work to be done to move our network forward.

Each of us knows that the "**operational stuff**" of our organizations is not so visible, but it is impossible without them.

That is why I also want to focus on these "invisible" issues.

As I told you last time:

I'm still ready to do my best for EEG.
